1. INTRODUCTION

There exists a close relationship between maternal nutrition and pregnancy outcomes. During pregnancy the foetus is solely dependent on maternal food intake and nutritional stores, mostly fat, for its energy. Poor maternal nutrition during pregnancy in turn implies a risk of poor nutritional availability to the foetus resulting in low birth weight babies. (mainly due to pre-term births or intra-uterine growth retardation) In the case of undernourished women, however, 30-40% of their children will have low birth weights (World Resources Institute, 2000).

Various studies have shown that low birth weight infants have less chances of survival and even when they survive they are more prone to disease, growth retardation and impaired mental development (Lancet Series, 2008). Also, intrauterine growth retardation contributes largely to the high incidence of low birth weights (LBWs). Moreover, even after pregnancy women resume work much before the body has recuperated which leads to a depletion in the nutrient stores of the body. This results in higher rates of neonatal morbidity and neonatal and perinatal mortality.

Although Odisha has made considerable progress in curbing the high rates of maternal mortality (222 per 100,000 live births) and infant mortality [(51 per 1000 live births (SRS, 2013)], a lot still needs to be done before we reach the Millennium Development Goals (MDGs).

To address the situation and alleviate the problem of maternal and infant undernutrition, Government of Odisha (Department of Women and Child Development) has envisaged a state-specific scheme for pregnant and lactating mothers called ‘MAMATA’- a conditional cash transfer maternity benefit scheme. The scheme will provide monetary support to the pregnant and lactating women which will enable them to seek improved nutrition and promote health seeking behavior.
2. MAMATA - THE SCHEME

Goals and Objectives

Goals
1. Contribute as a factor in reducing maternal and infant mortality.
2. Improve the health and nutrition status of pregnant and lactating mothers and their infants.

Objectives
1. To provide partial wage compensation for pregnant and nursing mothers so that they are able to rest adequately during their pregnancy and after delivery.
2. To increase utilisation of maternal and child health services, especially ante-natal care, postnatal care and immunization.
3. To improve mother and child care practices, especially exclusive breastfeeding and complementary feeding of infants.

2.1 Target Beneficiaries and Coverage

This scheme is operational in all the 304 projects from 28 districts of the State, excluding Bargarh and Sundergarh. In the 34 Projects of Bargarh & Sundargarh similar guideline will be applicable.

Pregnant & Lactating women of 19 years of age and above for the first 2 live births, except all Government/Public Sector Undertakings (Central and State) employees and their wives will be covered. The first 2 live birth norms shall be relaxed for PVTGs as per the Government Order No WCD-ICDS-SCHM-0029-2015/1672/WCD dated 31.01.2015

Age, number of live births and employment status would be as reported by the beneficiary in the format prescribed. In case of wrongful claim by the beneficiary, the amount paid to her would be recovered as per law. A
signed undertaking to this effect will be necessarily taken from the beneficiary at the time of registration under MAMATA.

2.2 Beneficiary Registration:

1. To avail the benefits under this scheme, a pregnant woman has to register herself at the AWC/mini AWC to which she belongs.

2. For all new cases of pregnancy, registration at the AWC should be done within 3 months of conception. However, for claiming the first instalment under Mamata scheme, a pregnant woman may be allowed to register within 4 months of conception.

3. Care should be taken to see that every pregnant woman registers her pregnancy at the AWC/mini AWC in whose service area she ordinarily resides. (A pregnant woman may avail services at any AWC, but she will receive her entitlements under MAMATA only from the AWC where she is registered. For e.g. If a woman discovers her pregnancy at her maternal home, she may go for her ANC at the maternal village, but her pregnancy should be registered at the AWC in whose service area she ordinarily resides).

4. In case of AWW vacancy, the beneficiary will register in the nearest AWC. However, the AWW while sponsoring her name to the CDPO shall mention the name of the AWC to which the beneficiary originally belongs and the reason for sponsoring her name. In that case the AWW will submit two separate reports for two AWCs.

5. It is the duty of the AWW to see that every pregnant woman registered at the AWC receives an MCP card. The MCP card will be used as a means of verification of the conditionalities for payment. Hence the AWW and ANM should ensure that the MCP card is provided to every beneficiary and the required information is filled in this card on time. It shall be the duty of the ANM to ensure that the MCT/RCH No of each beneficiary is recorded on the respective MCP Card within one month of her registration in the AWC/Mini AWC.

6. The names of all pregnant women who have registered at the AWC/
mini AWC will also be entered in the Register-5 : (Pregnancy & Delivery (of Revised ICDS MIS)) along with an entry in the MCP Card.

7. In the Register-5 : Pregnancy & Delivery (of Revised ICDS MIS), additional columns shall be added manually to capture Age, No of live Births and Self/Spouse employee in Government/ Public Sector Undertaking (Central or State). Based on these details for each pregnant women, the AWW shall identify those women who are eligible to receive entitlements under the MAMATA scheme and the existing practice of using Annexure A may be discontinued.

8. All such eligible women shall be asked by the AWW to open an account in a bank which has NEFT banking facility. The account shall be a single account in the name of the beneficiary. (A joint account or an account other than in the name of the beneficiary shall not be accepted). The beneficiary shall give the two numbers of photocopy of her first page of the bank passbook to the AWW. The AWW shall check the correctness of the details so submitted. It is extremely important that the bank details are submitted correctly to the AWW as the mode of payment shall be through e transfer The bank details shall be filled up by the AWW in the MCP card at the appropriate place i.e. reverse side of the cover page.

9. All such women shall then be briefed on MAMATA scheme & its conditionalities and given two copies of the self-declaration form (Annexure-B). The beneficiary shall fill up both copies of the self declaration form, with two photographs, mobile no details (of self or husband/guardian, if available) and undertaking by Husband/Guardian and return it to the AWW as soon as possible. Two numbers of photocopy of Aadhaar Card of the beneficiary and two numbers of photocopy of MCP Card of the beneficiary with MCT/RCH No shall be submitted. In case, if either or both of these two cards are not available, the reason for non-availability of such documents to be mentioned in the Annexure-B

10. The AWW shall keep one set of the documents submitted by-
(Annexure B with Photograph, photocopy of first page of bank passbook in the name of the beneficiary, photocopy of Aadhaar Card and photocopy of MCT/RCH Card with MCT/RCH No) with her at the AWC and submit the other set of documents to the CDPO after four months of pregnancy of the beneficiary. The CDPO shall then enter the details in the Online MIS format. The CDPO should keep all copies of self declaration forms (AWC wise) submitted the AWWs, in her office for purpose of cross verification and audit.

11. The AWW shall also get the beneficiary to sign a declaration on the MCP card after first instalment that she will i) initiate breastfeeding within one hour of delivery ii) continue exclusive breastfeeding till six months, iii) initiate complementary food on completion of six months and iv) continue age appropriate complementary feeding to after six months onwards,
